Concrete & Reinforcement Accessories
Construction Chemicals | Geotechnical
Groundworking Products | Waterproofing
Masonry Components

The Distributor of Choice

Encon Construction Products is a specialist distribution division of The Encon Group - the UK's No 1 independent distributor of building and project solutions. Other specialist distribution divisions in the Group include Encon Insulation, Nevill Long Interior Systems and Encon Technical Solutions. Our Group also benefits from dedicated teams in passive fire protection and infrastructure.

For detailed product information and to view the complete range, visit our website or download our dedicated Product Guide at www.encon.co.uk

Through our national branch network, Encon Construction Products offers an extensive choice of products and systems from market leading brands that span six key areas: **Concrete & Reinforcement Accessories, Construction Chemicals, Geotechnical, Groundworking Products, Masonry Components and Waterproofing.**

Working with market leading brands

and many more...

Concrete & Reinforcement Accessories

A full product range for concrete and groundwork contractors. From tie bars and ancillaries to numerous types of spacers and specialist products for structural concrete such as shear load connectors, couplers and balcony connectors.

Construction Chemicals

Primarily for use with concrete and includes a range for other applications too. High quality resin anchors for formwork and permanent heavy duty fixing, polysulphide joint sealants for concrete movement joints, cleaning products for masonry, and retarders and surface hardeners for concrete.

Geotechnical

A comprehensive range of geotechnical engineering solutions, ensuring that the natural environment is correctly prepared for your projects. Products include woven and permeable non woven geotextiles, geogrids, coastal erosion control and environmental protection.

Groundworking Products

A full range specifically for groundwork preparation, including gas protection and damp proof membranes, associated ancillaries and construction grout. We also stock in situ sacrificial formwork products such as Beamform and Hyrib and insulation for floor slabs.

Masonry Components

Every brickwork and masonry ancillary you will ever need, including bespoke masonry support and windpost systems, channel, brickwork reinforcement, wall ties and restraints, high performance damp proof course systems (DPCs), ventilation, firestopping and insulation.

Waterproofing

An outstanding choice of pre and post applied sheet membrane systems, as well as liquid waterproofing and tanking products and all the required ancillaries, including tapes, adhesives and protection boards.

Why choose Encon?

Trusted Brands, from Stock

Our strong relationships with market leading brands across all our divisions ensure customers benefit from wide stock availability and reassurance of supply through our 22 branches. This means all the solutions you need, from one main supplier.

Unrivalled Service, Nationwide

Our customers are our number one priority, and we aim to make it easy for you. Our nationwide coverage means there is always an Encon branch within reach to support your project needs. Our fully stocked warehouses and yards, convenient collection service, dedicated vehicle fleet and flexible deliveries ensure you get all the products you need, on time, to specification and in the volumes you need. Deliveries include split loads, next day or just in time.

Expert Teams

Our trained product champions and technical experts provide customers with specialist and in depth knowledge and experience so you can confidently make the right choice for your building projects.

Quality & Safety Assured

Health and safety is always top of mind, in our workplace, on site and on the road. Our HSEQ team continually strives to oversee, implement and improve health and safety procedures throughout our business. We are fully accredited to ISO 9001, ISO 14001, ISO 45001 and ISO 19443 and carefully consider the social and environmental impacts of our business.

Standards & Accreditations

Product Supply Chain for Infrastructure & Major Building

Encon's group-wide strategy is designed to support specifiers, designers, consulting engineers and main contractors at every stage of the project, from concept through to final commissioning and handover.

Our dedicated infrastructure team has extensive experience in the tendering process and is ready to engage from an early stage with technical expertise in areas of efficiencies, innovation, value engineering and turn key solutions. A holistic approach to accreditation, certification and approvals means the team also acts as a single point of access to all relevant documents.

Our Core Infrastructure Sectors

Defence: Naval Docks and Support Facilities; Weapons and Nuclear Establishments; Airbase Accommodation and Service Facilities; Army Barracks and Training Assets

Energy: Waste to Energy and Biogas; Natural Gas and Carbon Capture; Hydro and Tidal; Wind, Solar and Geothermal; Nuclear, Reprocessing and Fusion; Fuel Cells and Batteries; Substations and Transmission

Transport: Airports and Sea Ports; High Speed Rail and Rail Station Infrastructure; Overground Rail, Metro and Light Rail; Highways and Bridges; Tunnels and Crossings

Utilities & Civils: Water Facilities and Waste Sewer Systems; Electricity Distribution and Utility Network; Communication and Data Network; Flood Defence and Coastal Protection
